

Instruction

You will need:

A pair of scissors

A sheet of thick paper or thin cardboard

Glue

A clasp as used for padded envelopes.

1. Glue square A and circle B onto the cardboard.
2. Cut out.
3. Punch hole into the centre of A and B.
4. Fix circle B onto square A with the clasp.

And now you can start to cipher your own messages.

Make more disks and your messages can be deciphered by your friends.
